

Stacked seahorse

1

Download the template and cut out the individual pieces

2

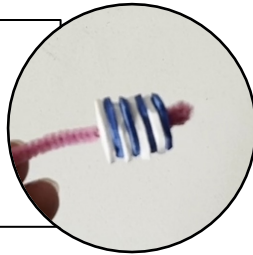

Transfer to sheets of coloured craft foam and cut out the individual pieces

3

Make a hole in the centre of each disc using a cocktail stick – do NOT use the two head pieces or crown

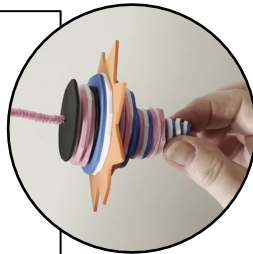

4

Thread the smallest discs on to a pipe cleaner to create the seahorse tail

5

Build up the seahorse using the remaining discs and put the frill in the middle

6

Glue the crown to the two head pieces then twist the top of the pipe cleaner and glue to the head sections
