

KEENO Beach Song

KEENO is going to explore the beach today
Think of all the learning that's within his reach
He wags and he woofs when he learns something new
Now he wants to start wagging and woofing with you

The crab is red
Sitting on a rock
The jellyfish is pink
Wobbling like a shock
The lobster is blue
Hunting for some food
KEENO wags and woofs
Exploring the beach is good

The octopus is purple
Wriggling his arms
The seahorse is brown
Blowing bubbles like charms
The turtle is green
Crawling on the sand
KEENO wags and woofs
Exploring the beach is grand

The dolphins are grey
Splishing splashing in the sea
The big fish is yellow
With his friends swimming free
The black and white flag is fluttering in the breeze
KEENO wags and woofs
Exploring the beach – yes please!

Something is shining and sparkling in the sand
KEENO starts to dig
He has paws where we have hands
Look it's buried treasure
Some silver and some gold
KEENO wags and woofs now the story has been told

Today KEENO went to the beach to explore
He met some different creatures but he also learned more
He learned some simple action words
And learned some colours too
KEENO wags and woofs when he learns something new

KEENO explored the beach today
He's glad you were with him along the way
He now needs a rest
In the hammock he will snooze
And when he'll next explore
I wonder where he'll choose
