

3D beach scene

1

Download the templates and print on to CARD

2

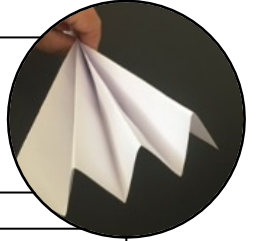

Colour the frame, background and characters for the scene you want to use

3

Cut out the characters (including the tabs) and cut the centre from the frame

4

Take a sheet of A4 PAPER and fold in half along the long edge – repeat twice more

5

Open the paper then use the folds as guides to create a concertina fan

6

Repeat to make a 2nd fan

7

Glue one edge of each fan to the inside of the background and the other edge to the back of the frame to create the 3D structure

8

Using the tab on each character, glue them to the frame or folds in the fan to create the 3D effect
