

Sea theme salt painting

1

Squeeze glue on to the card to create the outline elements for your picture

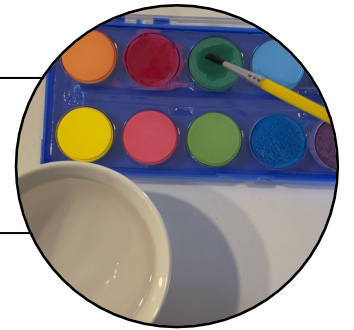

2

Sprinkle table salt over the outlines and shake off any excess

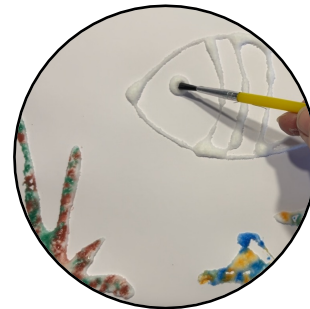

3

Add colour to the paint brush – keep it as wet as possible to encourage the paint to spread

4

Gently touch the raised salt lines with the paint brush and keep adding paint in different colours until you achieve the effect you want

5

Allow your painting plenty of time to dry
